

Taha S Awan

Data Analyst | SQL | Python | Excel | Tableau | Business Intelligence

Dallas, Texas, USA | +1 (469) 785-8260 | taha.awan2k3@gmail.com | [linkedin.com/in/taha-s-awan-30b278330](https://www.linkedin.com/in/taha-s-awan-30b278330) | github.com/tahaSawan

PROFESSIONAL SUMMARY

Recent Computer Science graduate and Gold Medalist with strong skills in data analysis, SQL, Python, Excel, Tableau, and statistical analysis. Experienced in cleaning, analyzing, and visualizing data to uncover actionable business insights through academic and real-world projects. Proficient in building dashboards, creating reports, performing exploratory data analysis (EDA), and applying machine learning techniques to solve business problems. Seeking an Entry-Level Data Analyst position where I can leverage analytical and problem-solving skills to support data-driven decision making.

EXPERIENCE

Freelance AI/ML Product Developer

June 2025 – Present

Independent · AI-powered products (analytics & reporting focus)

- Collected and analyzed learner performance data to identify weak subject areas, engagement trends, and progress KPIs for AI-powered product platforms.
- Built dashboards and reports to track learning outcomes, data quality, and product usage — supporting data-driven iteration decisions.
- Performed exploratory data analysis (EDA) on product metrics and documented insights used to improve practice workflows and user outcomes.

Freelance Frontend Developer

June 2026

Client project · Sweden (RE:WEAVE)

- Gathered client requirements and structured investor-facing content including market statistics, trust signals, and forecast sections for clear reporting.
- Delivered a complete stakeholder-ready website in two days, translating briefs into organized, scannable business information pages.

CORE COMPETENCIES

Data Analysis | Data Cleaning | SQL | Microsoft Excel | Dashboard Development | Tableau | Business Analysis | Reporting | Data Quality | Documentation | Statistical Analysis | Data Visualization | Problem Solving | Communication

TECHNICAL SKILLS

Data Analytics: SQL, Microsoft Excel, Python, Pandas, NumPy, Pivot Tables, Power Query, Microsoft Office

Data Visualization & Reporting: Tableau, Matplotlib, Seaborn, Dashboards, KPI Reporting, Business Intelligence, Reporting, Data Interpretation

Business Analytics: Data Analysis, Business Analysis, Data Quality, Data Cleaning, Data Validation, Documentation, Exploratory Data Analysis (EDA), Root Cause Analysis, Analytical Thinking

Machine Learning: Scikit-learn, Regression, Classification, Model Evaluation, Feature Engineering

Databases: PostgreSQL, SQL, Prisma, NeonDB

Tools: Git, GitHub, Jupyter Notebook, VS Code

EDUCATION

FAST NUCES Islamabad

Graduate

BS Computer Science (Robotics Specialization) · Gold Medal for Academic Excellence

PROJECTS

Employee Turnover Analytics — HR Retention Analysis | Python, SQL, Pandas, Scikit-learn

- Analyzed HR data using Python, SQL, Pandas, and Scikit-learn to identify employee attrition patterns and retention drivers.
- Performed data cleaning, data validation, feature engineering, and exploratory data analysis (EDA) to improve data quality.
- Built predictive models and compared algorithms using business performance metrics (91.7% recall, 0.979 AUC) for risk scoring.
- Generated actionable insights and reporting to help HR identify high-risk employees and improve retention strategies.

JobGPT — Job Market Analytics & Application Tracking | Python, SQL, Dashboards, Reporting

- Analyzed job market datasets to improve job recommendation accuracy and match scoring against candidate profiles.
- Built reporting dashboards for application tracking, pipeline status, and KPI monitoring across search and apply workflows.
- Processed resume and job posting data using Python; automated data extraction and matching workflows for faster analysis.

InsightFlow AI — Executive Report Analytics | Data Visualization, Reporting, KPI Analysis

- Transformed business reports into prioritized insights, scorecards, and leadership alerts for faster decision making.
- Supported root cause analysis and documentation of recommended actions from unstructured and structured report data.

CERTIFICATIONS

- Applied Data Science with Python (Simplilearn)
- Advanced Statistics for Data Science (Simplilearn)
- Machine Learning using Python (Simplilearn)
- Python 101 for Data Science (IBM · Simplilearn)
- AI Engineer — Masters Program (Simplilearn)
- Generative AI, Prompt Engineering & ChatGPT (Simplilearn)
- Programming Essentials (Simplilearn)

ACHIEVEMENTS

- Gold Medalist — BS Computer Science, FAST NUCES Islamabad
- Gold Medalist — IGCSE North Region (9A*) · Silver Medalist — A Levels
